

Ohio Medical® FEDERAL CAPABILITIES STATEMENT

Core Competency

With over 60 years of manufacturing excellence, Ohio Medical is a leading worldwide supplier of clinically relevant, reliable, and versatile medical suction and oxygen therapy products.

Key Differentiators

- **Infection Control**
- **Overflow Safety Traps and Filters**
Guard against accidental overflow and protect equipment (regulators, wall outlets, pipeline systems) from contamination and blockage.
- **Patented Push-To-Set™ Vacuum Regulator**
Automated occlude-to-set feature helps to prevent over suctioning and potential infections from tissue tears.
- **“Room Ready” Assessments**
Provides a detailed report on equipment needs and set-up to help make sure your facility’s crash carts and patient rooms are ready to go at a moment’s notice.
- **Clinical Safety**
