Instavac Portable Aspirator End of Life

Dear Valued Customer,

We regret to inform you that we have discontinued the Ohio Medical Instavac portable suction units, specifically the 756010 and 757010 models. Despite the discontinuation of these models, we are committed to ensuring that your suction needs are met. We would like to recommend an alternative portable suction unit that we believe will meet your requirements effectively. Our Care-e-vac[®] 3 (758000) is a continuous portable and battery-operated suction device and may be combined with a wheeled stand and adapter kit (AI2580000 and 758007) for enhanced mobility.

Ohio Medical will continue to provide service and repair parts as long as supplies are available. Unfortunately, the following pump kit part numbers are no longer available:

Replacement Pump Kit part numbers 756608 and AI5511 (Moblvac III)

While we regret any inconvenience this announcement may cause, we are eager to support your future product requirement needs with our quality product lines. If you have any questions, please do not hesitate to reach out to our customer service team or your local Ohio Medical sales representative.

Regards,

Suzanne Moyer
